Database & Software Engineering · Data Analytics

taylorburks@me.com | (561) 567-5622 | Crystal River, FL | [linkedin.com/in/taylor-burks](https://www.linkedin.com/in/taylor-burks)

SUMMARY

Information Management professional with a database administration and data analytics foundation, pairing hands-on SQL and Power BI reporting with self-directed software engineering in C#/.NET. Designs and ships reliable systems end to end — from data pipelines and reporting to networked desktop applications and containerized infrastructure.

TECHNICAL SKILLS

Languages C#, SQL (T-SQL), Python, Java

Data & BI Power BI, data analytics & reporting, relational database design, SQL Server

Platforms .NET 8, Docker, WSL2, Microsoft Azure

Engineering TCP/IP socket programming, REST APIs, Git, Gradle build systems, audit logging, network hardening

PROFESSIONAL EXPERIENCE

Student Finance Advisor

Sep 2023 – Present

Ultimate Medical Academy

- Build and maintain Power BI reports tracking students' financial aid status, surfacing process bottlenecks and prioritizing follow-up across a high-volume caseload.
- Manage financial aid completion workflows, advancing student files through quality-assurance review to verified completion.
- Advise students through complex financial aid processes, translating regulatory requirements into clear, actionable next steps.

Technical Support Analyst – Tier 2

Aug 2021 – July 2022

Jonas Software

- Delivered Tier 2 support for on-premises devices and a cloud-based property-management CRM, resolving escalated issues across phone, web, email, and live chat.
- Applied cybersecurity patches and configured networking on newly provisioned client devices.
- Supported point-of-sale credit-card terminal hardware, performing terminal-level configuration and troubleshooting.

Inventory Controller

Jun 2016 – Jul 2019

Microsoft Corporation

- Managed inventory and shipping/receiving of electronic equipment, reducing shrinkage through tighter tracking and process controls.
- Provided technical support for demo devices and assisted in the deployment of new hardware.

TECHNICAL PROJECTS

“TDRemoteAssist” — C# / .NET 8

Remote Desktop Application

- Commercial-grade remote desktop control application built from scratch with a networked **Agent/Client architecture over TCP**. Implemented custom magic-number message framing to eliminate stream-deserialization failures.

Local AI Inference Platform

Self-Hosted LLM Infrastructure

- Self-hosted LLM stack on Windows using **Ollama, Docker, and WSL2 with GPU passthrough**. Hardened with LAN isolation and loopback-only firewall binding; tuned quantized model selection to GPU VRAM constraints.

RuneLite Plugin — Java

Open-Source Contribution

- Authored and published a game-client plugin in Java through the open-source RuneLite ecosystem, resolving **Gradle build and resource-packaging** issues to ship a working release.

EDUCATION

B.A.Sc., Information Management — Database Administration & Data Analytics (CIP Code: 11.1005)2023

Palm Beach State College

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)

Certified

Microsoft Dynamics 365 Business Central Functional Consultant (MB-800)

In Progress
